LinkedIn: [/kevin-henley](#) | GitHub: [/KevinHenleyCode](#)

Portfolio: https://kevinhenleycode.github.io/React_Portfolio/

Full-Stack Web Developer experienced with a wide range of technologies. Loves finding the best solution to any problem. New technology is never an issue when you're always the first to learn it. A master at explanations on the highest level and the lowest. Keeping composure and staying organized in a chaotic scene is second nature. Looking forward to being part of a high-quality team that is dedicated to making high-quality products.

Technical Skills

HTML | CSS | JavaScript | Bootstrap | Node.js | Express | MySQL | MongoDB | React

Projects

Password Generator: Deployed: https://kevinhenleycode.github.io/Password_Generator/

GitHub: https://github.com/KevinHenleyCode/Password_Generator

- Summary: Generates a random password based on the user's choices
- Role: Sole author
- Tools: HTML/CSS/JavaScript

Ducking Awesome Soundboard: Deployed:

<https://kevinhenleycode.github.io/Ducking-Awesome-Soundboard/>

GitHub: <https://github.com/KevinHenleyCode/Ducking-Awesome-Soundboard>

- Takes in two APIs and uses them together to translate text and filter unwanted words. Then takes those words and puts them through a text to speech generator that can be summoned with a button click.
- Was one of two JavaScript developers
- HTML/CSS/JavaScript/jQuery/Bulma

Scissors Palace: Deployed: <https://scissors-palace.herokuapp.com/>

GitHub: <https://github.com/KevinHenleyCode/Scissors-Palace>

- A React ecommerce site that uses stripe to handle user payments.
- Backend Developer
- MongoDB/Express/React/Node/Stripe/Apollo

Experience

Stock Associate, Cost Plus World Market - The Woodlands, TX
2020 to Present

- Keeping the store constantly stocked and presentable for customers.
- Made sure customers were always aware of our most current deals.
- Completely reorganized the warehouse to increase proficiency.

Freelance Graphic Designer, Self Employed - Frisco, TX
2017 to 2020

- Taking clients input and creating the product they need.
- Always presented clients with alternative solutions to the problems they wanted solved.
- Improved ability to communicate with clients and suggest ideas that were not immediately apparent to them.

Cashier/Lot Associate, Home Depot - Porter, TX
2017 to 2017

- Keep customers moving through the line while making them feel welcome.
- Made sure to look at what other customers had before they got to the front of the line.
- Was able to have engaging conversations with customers while being able to think ahead on how to get the next customer through the line as quick as possible.

Steering Columns/Panels/Wiring/Brackets/Setup/Shells/Fuses, Peterbilt - Denton, TX
2011 to 2016

- Building upwards of 100 trucks in an 8 hour shift.
- Made sure to identify where the slow parts of the line were.
- Was able to help out coworkers that were struggling to keep up.
